Doan's Kidney Pills relieve back-ache.

Cure every kidney ill.

H. R. McCarver, living at 286 Holiday street, Portland, Ore., says:

"Some years ago Doan's Kidney Pills proved of great benefit to me and I publicly recommended them. Since then I have advised many of my fellow workmen to give them a trial and the results have been satisfactory in every instance. I believe kidney trouble in my case was brought on by a cold. I had always been somewhat skeptical regarding proprietary medicines but somehow the claims made for Doan's Kidney Pills impressed me and I began their use. Relief soon followed and I have had no serious return of kidney complaint since."

Plenty more proof like this from Astoria people. Call at Lawrence Rogers' drug store and ask what customers report.

## MONSTER BATTLESHIP NAMED THE UTAH

BIDS FOR CONSTRUCTION WERE OPEN AT WASHINGTON YESTERDAY.

WILL BE SAME AS FLORIDA

The Vessel Will be of About 21,200 Tons Displacement—The Utah and Florida Are the Vessels Authorized by the Last Congress.

WASHINGTON, Nov. 9.—Initial steps for the construction of another monster battleship for the American navy will be taken today when proposals for its construction will be opened at the navy yard. This will be known as battleship 31 and already has been designated by the president to be called the Utah. She is to be a ship of about 21,200 tons trial displacement and is to be a sister ship of the Florida, which is to be constructed at the Brooklyn navy yard. Both vessels were authorized at the last session of congress. No decision has been yet reached as the character of engines to be installed aboard the vessel and bidders will be given the privilege of submitting proposals for turbine and reciprocating engines. Much interest centers in the bidding.

## VICIOUS ASSAULT

(Continued from page 1)

in killing the postmaster and that most men would consider his act that of an insane man. He asserted that the postmaster had withheld a registered letter addressed to Mackey under an assumed name and had insisted that he produce a certificate showing his right to receive such mail. Mackey declared he was reconciled to the killing of himself by failing eyesight and chose the postmaster as a victim because he was the most prominent man who had antagonized him.

Mackey was an Englishman, 31 years old and he formerly was employed in Boston.

BOSTON, Nov. 9.—Eric H. B. Mackey, who shot Postmaster Morgan in New York City today and then killed himself, was a son of H. W. Mackey, of Cambridge, who is engaged in literary work. Mackey formerly lived in Cambridge, where he was employed at the factory of the Boston Woven Hose & Rubber Company. He was born near Dublin, Ireland, and was about 15 years old when his parents came to Boston.

About six years ago he shot a fellow employee because of a fancied grievance, and after trial was adjudged insane and committed to the Worcester Asylum, from which he escaped in 1904.

EXTERNAL REMEDY FOR ECZEMA

Why Salves Fail While a Simple Liquid Has Accomplished Thousands of Cures.

It is now thoroughly established among the best medical authorities that eczema is purely a skin disease, due to a germ and curable only through the skin. It is not a blood disease at all; in fact, thousands of people suffer with skin disease and are perfectly healthy otherwise, and therefore prove they have no diseased blood.

Smearly salves cannot reach the germs because they do not penetrate the skin. The only way to reach the germs is by means of a penetrating liquid.

Such a liquid can be obtained by simply mixing ordinary oil of wintergreen with thymol, glycerine and other healing agents. This compound known as D. D. D. Prescription stops the itch instantly—and the cures all appear to be permanent. In fact, it took thousands of cures, case after case, before the best scientific authorities were convinced of the absolute merit of this remedy. The effect of D. D. D. Prescription in numbering the itching eczema germs is seen within one minute after the first application. We especially recommend D. D. D. Prescription Soap in connection with this treatment. Lawrence Rogers, druggist.

Mr. and Mrs. George Jackson, of Cathlamet, were over-Sunday visitors in this city, leaving for their home on the Lurline last evening.

## LIGHTNING AND SHIPS.

Vessels Are Struck More Frequently Than Is Supposed.

In spite of the popular impression to the contrary, ships remote from the land are seldom damaged by lightning, although some of the most awe-inspiring displays of atmospheric electricity are frequently witnessed by those on board of them.

Standing rigging and even parts of the running gear are now made of steel wire, and this substitute for the old-fashioned hemp serves the purpose of lightning conductor when the ship is not fitted with such an aid to safety.

The electric current is conveyed down the wire rigging and reaches the sea through the vessel's metal hull. Damage occurs only if the current be interrupted on its way down. In a comparatively large proportion of instances the fore royal truck is struck by lightning, that of the mainmast frequently and the mainmast less frequently and the mizen least of the three.

Very serious casualties under this head occurred to warships and merchant vessels in the days of wooden hulls and hempen rigging. In July 1892, as thirteen sailing vessels of the East India company were trying to round the cape in the vicinity of Algon bay, homeward bound, two of them, the Britannia and the Bombay Castle, were struck by lightning. The foremast of each was soon enveloped in flames, and the masts had to be cut away in order to save the ships and their combustible cargoes. A heavy gale was blowing, the night was dark, and the other ships of the fleet, which were hove to at the time, were witnesses of this thrilling incident.

Many vessels are now fitted with lightning conductors of approved types test the wire rigging should fail to carry off the electric current. In May, 1893, shortly after a severe thunderstorm, accompanied by lightning and rain, in 3 degrees south, 87 degrees east, the P. and O. steamship Victoria had a sudden increase of deviation amounting to 6 degrees in both the standard and the wheelhouse compasses, and later it was discovered that the lightning conductor on the fore had fused. The ship must have been struck by lightning during the storm.—Knowledge Magazine.

## EX-SENATOR CARMACK

(Continued from page 1)

God's sake, don't shoot. Then I saw Mr. Carmack wheel and fall in a heap in the gutter."

Mrs. Eastman said she saw the young man standing over Carmack and that he put something into his own pocket.

WASHINGTON, Nov. 9.—Carmack during his senatorial career from 1901 to 1907 made a number of brilliant speeches. Although inclined to be sarcastic in some of his utterances, he made many friends in congress among the Democrats and Republicans who admired his fearlessness and intellectual attainments. He constantly attacked the Republican administration notably in connection with Indianola, Brownsville and the Panama revolution incidents and executive encroachments. In the Senate he was a minority member of the committee on Philippine Islands.
